Our Medicare Supplement plans enhance Original Medicare and give members the freedom to choose any doctor who accepts Medicare. They're designed to help your clients get the additional coverage and flexibility they want, along with access to many "healthy extras."

For example, hearing aid coverage, access to doctors on-call 24/7, or a Personal Emergency Alert Device is included with select Medicare Supplement plans.

Many plans include allowances for over-the-counter items, routine dental and vision benefits, hearing aids, Personal Emergency Response System (PERS), and transportation services to medical appointments.²

¹ Out-of-network/non-contracted providers are under no obligation to treat Plan members, except in emergency situations. Please call Producer Services for more information, including the cost-sharing that applies to out-of-network services.
