

## Get your vaccines at a network retail pharmacy

The next time you're at the pharmacy, think about getting or updating your vaccinations. Our large network of retail pharmacies can give some vaccines to eligible Blue Shield of California members<sup>1</sup> at no extra charge.

These vaccines are part of your preventive health benefits and can stop some health problems before they start. You don't need a prescription to get them. And you still have the option to get these vaccines at your doctor's office, instead of at a pharmacy, if you prefer.

Vaccines are covered in accordance with guidelines established by the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention (CDC).

For more information about these vaccines and how to get them, call the customer service number on your Blue Shield member ID card.

### Covered vaccines available at participating retail pharmacies

Vaccine	Age Limits
<b>Coronavirus (COVID-19)</b>	6 months and older
