

Value Specialty Drug List

This list reflects medications designated as specialty drugs under the pharmacy benefit. Most specialty drugs require prior authorization for medical necessity. If covered, specialty drugs cannot be obtained from a network retail pharmacy and must be obtained from a Blue Shield Network Specialty Pharmacy. Some drugs may not be available for distribution through the Network Specialty Pharmacy in which case it may be obtained through a non-network specialty pharmacy that carries it.

A Blue Shield Network Specialty Pharmacy may be located at blueshieldca.com/en/home/be-well/pharmacy/specialty-pharmacy.

To see if this specialty drug designation applies to your coverage, please check your *Evidence of Coverage* or *Certificate of Insurance/Policy*. You may also call the customer service phone number listed on your Blue Shield ID card.

NOTE: Drugs administered by a healthcare professional (not self-administered) or provided as part of a home health or home infusion service are not listed in this document. Coverage may be provided as part of a medical service, subject to applicable deductibles and copays.
